8. General comments regarding the sessions at the 2012 FCIE Annual Event:

Text Response
I thought the sessions were very informative.
I felt the connectiveness -that was the theme through out the conference. The cash bar and cocktail hour was a great way to network with participants. The entertainment was excellent. I enjoyed the interactive presentations and left the conference with new ideas. Even through it was a smaller group of attendees, it was one of the best conferences I attended.
I thought it was excellent! I really learned a lot.
I was really quite offended by Jubran's editorializing considering the propriety of preparing undergraduate students for global citizenship. I thought the comments were inappropriate in the context of his talk and unfounded by evidence. I thought they were particularly insensitive given the number of institutions in Florida that embrace the concept; many of our institutions are home to students who tell us that they consider themselves to be global citizens--they identify with multiple interrelated ethnic groups and nationalities, and they feel allegiance and responsibility towards these groups. They ask our institutions to prepare them to solve problems in an interconnected world. Although I found some of his talk instructive in terms of the mechanics of curriculum reform, I was utterly turned-off after these comments.
This is was my first time attending FCIE Conference and I enjoyed each one that I was able to attend.
Very good conference. I am looking forward to next year's event.
The sessions were top notch and well managed. Bravo
hats off to you for developing an engaging program around a challenging topic. Bringing Dr. Jubran to the conference was a good addition to the program and provides an external (beyond Florida) perspective that we all find useful.
It was my first FCIE event and I thought everything was great.
The session topics were excellent. If I marked good or fair it was because I felt the session presenters had either not prepared enough or missed the mark in some form or fashion. None of the presenters sought written feedback at the end of the presentation. That surprised me. Edith Pendelton went quickly but often stopped to get immediate feedback.
Fantastic conference. It's wonderful to see the momentum that has been building across the state.
The event went very smoothly, and all of the sessions I attended were very interesting!
The event was excellent. Very organized.
Too many administrators- yes, I may be a future administrator, but as a full time teacher who has been "volun-told" to internationalize the campus (!) I felt isolated.
All three sessions I attended provided me with resources I will use in the very near future. Thank you.
Informative and effective
Excellent job

9. Is there anything else that you would like to share with us?

**Text Response**

Jennifer Robertson did a wonderful job of orchestrating this very worthwhile event! Thank you!

More coffee & water available during the entire conference

Having a conference Thursday to Friday was good planning especially with closure early afternoon.

Congratulations on preparing such a well organized conference and having such interesting topics. There is a presentation I attended regarding the discipline specific approaches. I thought it was excellent, but inadvertently, I click on "did not attend".

The dancers were FANTASTIC. What a wonderful surprise! It was a very beautiful way to spend the evening – the group was very accomplished and professional. Thank you for that treat!

I really enjoyed the entertainment, Flamango Dance. It was awesome!

Outstanding conference. One of the very best I have attended. I look forward to next year's. Well done, Valencia!

Please have bottles of water available next year in breakout rooms.

This meeting was heads above previous meetings in quality, professionalism and engagement. FCIE is now a well run entity. It was great to see several faculty from the Orlando area as well in the sessions. I do think FCIE should rotate around the state since that way we can all engage our international education faculty a bit more, and share the burden of conference planning and logistics. The strong argument that Orlando is in the middle is true, but I feel some variety offsets that.

Would you consider preparing a jump drive of the presentations and handouts for everyone and have that in the registration packets. If you could request the handouts in advance and post them online, we would be able to have them ahead of time and not require the presenters to bring paper copies. You have a great facility there. I did not stay at the Wyndham but in another hotel so I cannot comment on your hotel choice. Orlando is a good location and easily accessible from anywhere in the state.

Wow! This was an excellent conference. Everyone was welcoming and open and willingly shared information while genuinely seeking information. The Flamenco Performance was better than I saw in Malaga this summer! And I will be very happy to participate actively in FCIE. Ray Cornelius, Daytona State College [cornelr@daytonastate.edu](mailto:cornelr@daytonastate.edu)

I would prefer to have had the conference during Friday and Saturday.

No

Tell attendees to turn off cellphones/smartphones - please! I'm sure they think they're so important, but please, let the rest of us absorb the presentation.

It was a great conference.

Fabulous planning and correspondence with the speakers.

Central Florida is a good location for the conference. September may be a little early to have the conference.
